*Contura i8*

A photograph of a dining table with a vase of dried flowers and a candle holder, set against a window with a dark curtain. The scene is dimly lit, with light coming from the window. The table is dark, and the chairs are light-colored. The vase is dark and contains several dried, brown flowers. The candle holder is brass and holds a single white candle. The window has a dark, textured curtain. The background outside the window shows trees and a bright sky.

# Heart of the home

Viewed from many angles.

All homes are unique. When you're creating your dream home, you'll also want your fireplace in exactly the right spot. Our new Contura i8 cassette can be slotted into a custom-designed recess or an existing fireplace. We've upgraded the Contura i8 to feature generous sidelights, glass panels for one or both sides of the cassette. The fireplace becomes the natural centrepiece of the room and creates a sense of harmony that warms both body and soul.

# Contura i8

## Customise your fireplace

The Contura i8 offers you multiple options for creating a unique look in your home. The cassette comes in a range of designs with sidelights on both sides, or on just the right or left side. You can choose a door with a cast-iron frame (i8) for a robust and subtle look, or a glass frame (i8G) that emphasises the generous glass door and sidelights.

# Always warm and welcoming

Thanks to its sidelights, the new Contura i8 displays its fire from many angles. It produces an even heat and burns with outstanding efficiency. Our Clean Burning System spreads the heat across the inside of the glass, which helps to keep it cleaner. The Contura i8 is a high-quality product, made in Sweden and guaranteed to give years of pleasure.

The design and product development of Contura stoves and the assembly of all stove parts take place in Sweden. The stoves are quality controlled before leaving the factory in Markaryd. This gives us full control over the quality at all stages of manufacture. We are proud to mark our stoves "Made in Sweden".

Our stoves already meet the stringent requirements of the EU Ecodesign Directive for 2022. The aim is to reduce emissions from domestic heating equipment. Our wood-burning products are energy class A and A+ to give you a wood burner with high efficiency at a low fuel cost.

Contura has been adding cosiness to people's lives for more than 50 years. We believe that building more relaxation into our daily lives is beneficial to everyone's health and general well-being.
